

Butterflies, Moths and Insects - fine detail and colour - NEW VENUE

Jackie Isard SBA Fellow CBM RHS Gold

6th - 7th Jun 2026

Saturday to Sunday

Learn how to draw and paint beautiful butterflies and other insects in watercolour!

Description

These beautiful insects are full of texture, furry-ness, exquisite patterning and fabulous colours. Painting a butterfly or a moth will teach you so much about fine detailing and colour mixing with watercolour. I have some interesting colourful and shiny beetles too if you prefer. You will also have a chance to look at details under a microscope! Techniques will be demonstrated, and I will give you lots of help throughout the course. Choose your subject from my large selection of butterfly, moth and insect specimens. Included are notes of interest for you to keep.

Please bring with you

Good quality HOT PRESSED WHITE (NOT CREAM) watercolour paper 140lb/300gsm, A4 (9inch x 11inch) size will be big enough.

Cartridge or tracing paper (60gsm) for drawing your butterfly or moth before tracing onto your watercolour paper. * I will have a light pad available to use if you wish to transfer this way. If you do, bring along tracing paper 60gsm and a Unipin black fineliner 0.05 pen. I have trace and pens to sell if needed. *

Full bodied pointed sable brush No. 2, 4.

Billy Showell synthetic Fine Liner pointed brush. *

Mixing palette or plate porcelain/ceramic.

2 water jars

H pencil *, soft eraser *, sharpener.

Kitchen Roll or Linen/Cotton cloth for brush cleaning and drying off.

Winsor & Newton Professional watercolours *I recommend these colours to achieve good matches to your butterfly or moth but you may use other watercolour brands. Iridescent pigments can be useful for adding shine.

Beetles will need more intense, brighter pigments like Phthalo Turquoise, Winsor Green, Aqua Green etc.
